

Quality Policy

The Policy of Logicom Solutions Ltd is to provide Integrated IT Solutions through a broad portfolio of Quality Products and Services to its customers. Based on this our companies can maintain their competitiveness in the IT market by providing design, development, implementation, administration, monitoring, integration and support of infrastructure and turn-key Information Technology and Communications solutions in Cyprus, Greece and Malta.

Quality in this context is taken to mean tailor made design, development to specification, competitive costs and efficient on-time delivery as well as continuous customer support. The Management of Logicom Solutions Ltd is therefore, committed to providing products and services as per customer requirements while at the same time abiding to the relevant national legislation and regulations.

To achieve the above, Logicom Solutions Ltd has adopted and implemented a Quality Management System compliant with ISO 9001.

Through the Quality Management System, the Management continuously sets quality objectives and targets, assesses the performance of the organization through quality performance indicators and reviews and revises its objectives and targets on a systematic basis, during management reviews, with the aim of continual improvement of both the quality management system and the corporate performance.

Our strengths are the highly qualified and committed personnel, our relationship with the world-renowned suppliers we have carefully selected and represent, and our continuous contact with customers and the market in general.

Consideration and care is also given to aspects concerning ergonomics, health and safety and environment protection.

Chrysostomos Kridiotis
Managing Director
Logicom Solutions Ltd
